❖ Kinder

❖ Newsletter

❖ Living Things in the Dominican Republic

- ❖ This month we are going to work with the last consonants to complete all the consonants of the alphabet (Jj, Qq, Xx, Zz) so you can review at home each of the studied letters.
- ❖ In math we have been using the calculators for counting. They also explored calculators by entering numbers and adding 1 to see the next number.
- ❖ In theme we are still working with "Living Things in the Dominican Republic". This time we are exploring each region (North/Cibao, Southeast and Southwest) and at the end of the theme we are going to organize a field trip to either the "Jardín Botánico Nacional" or to the "Museo de Historia Nacional". This will be the conclusion of this theme.
- ❖ If you have anything to share about the regions (pictures, music, videos) please let us know.
