November 2009

Recount

October was so much fun. We had our presentation on the Human Body where organs and system were beautifully presented. We have a healthy food picnic showing what we learn about the food pyramid. Plus, the 30th we had the Character Dress Up Day and it was a blast. Most of our students came with interesting costumes from their favorites books. So...Yes, we had a great time!

This past month worked with the words **I, my, me, is, on, am, the, not** and **for**, and the next weeks we will work with **play, like, to, see, go** and **down**. Help us to reinforce these words when reading books at home.

Writing tip of the month

Write it down

Have paper and pencils available for your child to use for writing. Working together, write a sentence or two about something special. Encourage her to use the letters and sounds she's learning about in school.

Looking forward

Our theme is "**Is it alive?**". We have been talking about living things and what make us say they are alive.

Now we know that rubber ducks are not alive but plants and animals are. We are learning to love and take care of living things.

We have lots to work in math and science: Live cycles, growth or change charts, comparing plants or animals and dividing them in categories.

We have our hands full!

- **Activity:** *Kinder A and B are growing a greenhouse behind high school building.*
- **Check this!** *Resource that we have been using these weeks in the computer center.*
