8:00 a.m

Sunday, Feb 27
Independence Day

Friday, March 4
Secondary school Science Fair

Friday, March 11
Last day of 2nd trimester

Science Fair

On Friday March 4 students from 7th through 12th grade will be presenting their projects at our first ever Science Fair. Students have chosen the topics of their interest in Physics, Chemistry and Biology - and will be working on these throughout February in the lab with guidance from our Science team. Parents and Universities are invited to attend from 9 am - 11 am to see our students present their experiments and creations. Class governments will also be selling snacks and refreshments.

Don’t miss it!!

Re-enrollment

Thank you to all of you who have re-enrolled your children for the 2010 – 2011 school year. If you have not yet paid registration but intend to, please let the office know immediately so that we can reserve your child’s space.

We have a long waiting list of families who would like to enroll their children in the school. These families need prompt information from us so that they can take important decisions. As of next week we will begin testing children for any openings that we have. All the families in our school are important to us and we want to make sure your needs are met. Therefore it is important that you let us know if you plan to return so that we don’t leave your children out.

“Few parents have the courage to care more for their children’s happiness than for their success”
-Erich Fromm
Canadian Embassy Ambassador, Todd Kuiack, who is a father in the school and an Algonquin from the Pikwakanagan First Nation, shares his aboriginal heritage with 5th Grade students.
